Subject: PRESS RELEASE 11/6/15 - Traffic Signal Improvement at Main St and Ed Noble Pkwy

PRESS RELEASE

City of Norman
201 West Gray
Norman, Oklahoma 73069

For Immediate Release: November 6, 2015

Contact: David Riesland, City Traffic Engineer, 329-0528, david.riesland@normanok.gov

Traffic signal improvement at Main Street and Ed Noble Parkway

On Sunday, November 8, 2015, weather permitting, the City's contractor, Traffic and Lighting Systems, will be working at the intersection of Main Street and Ed Noble Parkway. The work involves replacement of a traffic signal pole located in the northwest corner of the intersection. The pole in question was damaged during a traffic collision in September, 2015. Due to the nature of the work, lanes closures may be necessary on the westbound approach to the intersection. Traffic control will be provided to guide motorists safely through the work zone.

After 7 a.m. on November 8, the intersection may be temporarily controlled by an all-way STOP sign. Full signal operation should be restored at the intersection by 12 p.m. on the same day.

Any questions about the project can be directed to Mr. David Riesland, City Traffic Engineer, at 405-329-0528 or david.riesland@normanok.gov.
